FATAL PLEASURE TRIP

TUG RUNS DOWN A LAUNCH
ON THE MAUMEE RIVER
NEAR TOLEDO.

SEVEN PERSONS DROWN

Owner of the Launch and a Party of Eleven Young People Were Taking an Evening Ride When the Accident Occurred—Captain of the Tug Says the Pleasure Craft Showed No Lights and He Did Not See It.

Toledo, O., May 8.—Seven young persons, members of a Sunday school class of the First Baptist church, were drowned in the Maumee river just below the city as the result of the naphtha launch Frolic, on which they were taking a pleasure ride, being run down by the tug Arthur Woods of the Great Lakes Towing company's fleet. The dead are:

Irwin Swayne, Bessie Leessee, Edna Lowe, William Fanner, Bess Byersum, Eaulalie Rickard and Grace Haspin.

The launch was owned by Joseph W. Hepburn of this city, who invited 11 young people to take an evening ride with him. They started out on a trip to Lake Erie early in the evening and were returning when the accident happened. Mr. Hepburn, Miss Clara Marks, Arthur Marks and Miss Grace Lowe are the only survivors. Mr. Hepburn states that he saw the lights of the approaching tug, and thinking it was bound straight down the river, turned to the east. When nearly abreast of the launch the tug suddenly turned to the east in order to make the dock at Ironville, and before the launch could get out of the way it was struck by the tug and turned over and sunk about 100 feet from the dock. Mr. Hepburn caught hold of the side of the tug and the Lowe girl grasped his leg and both were pulled on the tug. The Marks girl was picked up from a cushion on which she floated. Arthur Marks also was fortunate enough to grab a piece of wreckage and was picked up by those on the tug. The other seven members of the party were drowned and the river is now being dragged for their bodies, but they will probably not be recovered for several hours.

The tug brought the rescued to this city. Captain Al Pitts was in charge of the tug and says that the launch showed no lights and that he was not aware of its presence until the tug struck her.

ARMY OFFICER ASSAULTED.

Lieutenant King Probably Fatally Injured at Evanston, Ills.

Chicago, May 8.—Lieutenant H. E. H. King of the Twentieth Infantry, stationed at Fort Sheridan, was badly beaten by unknown men and sustained injuries which are likely to cause his death. His assailants are supposed to be deserters from the fort for whom the lieutenant had been searching.

He was found on the steps of the residence of J. M. Melville, 1039 Greenwood avenue, Evanston, where he had gone to secure assistance and had fallen unconscious on the doorstep. His head was terribly beaten and his assailants had evidently kicked him many times in the face after he had become unable to defend himself. He has also sustained internal injuries.

BOY CHARGED WITH MURDER.

Causes the Death of a Child by Swallowing Gas in a Sewer.

Atlanta, Ga., May 8.—As a result of the death of 6-year-old Collin McDougall of this city, which is claimed to have been caused by sewer gas poisoning, Victor Nutall, aged 11, was arrested, charged with the murder of the boy.

It is alleged that several days ago Nutall, with two companions, forced the child to go with them into a street sewer, and while there Nutall compelled him to remain under the slime until he had swallowed sufficient sewer gas to have caused his death. McDougall died in convulsions.

GREAT WESTERN WRECK.

Conductor of a Freight Killed at Talmage, Ia.

Des Moines, May 8.—The breaking down of a tank car filled with oil was the cause of a costly wreck on the Chicago, Great Western at Talmage, 50 miles south of here. Conductor George Miller of St. Joseph was killed.

The tank car fell from the bridge over the Grand river, dragging three cars with it, including the caboose. The oil was ignited and the bridge, which is 150 feet long, and the cars were burned.

ST. LOUIS TO TWIN CITIES.

Rock Island Road Planning a New Through Route.

Chicago, May 8.—The Record-Herald says: Unless present plans of the Rock Island management fail, Chicago will soon have another line to St. Louis and St. Louis will have a new through line to St. Paul and Minneapolis. Agents of the Rock Island are negotiating for the purchase of a majority of the stock of the Chicago, St. Louis and Peoria road with a view to making it the southern portion of a new St. Louis-Chicago line.

HELD FOR MURDER.

South Dakota Ranchman Charged With Killing His Brother.

Faulkton, S. D., May 8.—An inquest to acquire into the death of Edward Coleman was held here during the day. Joseph P. Coleman, brother of the dead man, told a straightforward story apparently. He and his brother Edward were alone at the ranch at the time. Edward was in the house while he was outside and about 150 feet away from the building. He was doing some work when he heard the report of a gun in the house. On rushing in to learn the cause he found Ed sitting in a chair and the gun on the floor.

Coroner Edgerton took the stand and exhibited the heart and rib, which were taken from the body during the post-mortem examination at Melette. The post-mortem examination upsets the story that the rifle ball passed through the body.

It was clear, too, that the ball must have entered the body from the back. The heart was also pierced by the bullet, and the large artery leading from the heart was punctured showing conclusively that the wounded man must have died instantaneously.

The jury brought in findings that Coleman met his death by a gun shot fired from behind him, and that death was not accidental or with suicidal intent.

Joseph Coleman is under arrest charged with murder in the first degree.

SUBMARINE BOAT PLANS.

Two Men Under Arrest Charged With Stealing Them.

New York, May 8.—George H. Peters and John Graham were arrested by city detectives during the day. Peters is charged with stealing the blue prints of the original plans of the Holland submarine boat and Graham with attempting to sell the prints. Both men are recently said to have come from San Francisco.

According to the detectives Peters was employed in a confidential capacity in the office of the Holland Torpedo Boat company and the Union Iron works in San Francisco, acting as stenographer and clerk to the managers of the consolidated companies. On April 18, the detectives allege, he gave up his position and left San Francisco, taking with him the original blue prints of the drawings of the Holland submarine boat. These prints had been in the hands of the officials of the navy department at Washington, where they were inspected by naval experts. They had just been returned to San Francisco when Peters, it is alleged, managed to get hold of them.

MUST STAMP OUT ANARCHY.

Carr, treasurer, made his report, and President Sylvester read his annual address and report. He urged the necessity of the police chiefs taking steps to stamp out anarchy. He said before this could be done satisfactorily the association should be made an international organization and that directors of safety of all countries should unite in this movement. He also recommended that pressure be brought to bear on congress providing for a national bureau of identification.

CHARACTERISTIC SPEECH BY THE SENATOR FROM SOUTH CAROLINA.

BITTER AGAINST NEGROES

Declares That if the South Had Known the Colored People Were to Be Given the Reins of Government the Civil War Would Have Been Indefinitely Prolonged—Mr. Burton of Kansas Vigorously Replies.

Washington, May 8.—Discussion of the Philippine bill in the senate again took a sensational turn. Mr. McComas of Maryland, referring to the alleged cruelties of American soldiers in the Philippines—cruelties which he deeply deplored—told of some of the cruelties which had occurred on both sides during the Civil war. Neither side, he held, was responsible for those regrettable occurrences, as neither side approved of them. In this connection he suggested that senators from South Carolina and Mississippi, "where there is less popular liberty than in any others," were shouting loudest for constitutional liberty in the Philippines.

These remarks drew a sensational reply from Mr. Tillman of South Carolina, who declared that it was no longer possible to snore away the responsibility for the infamies committed by Americans in the Philippines. He said that if it had been known in the South that the reins of government were to be given to the negroes the Civil war would have been prolonged indefinitely. He insisted that in order to maintain their self respect, the white people of the South had been obliged to subdue the negro by what ever means they could, using the shot gun as one of the means. He frankly described how the negroes had been

Defeated at the Polls.

admitting that the whites had gotten just such majorities as were necessary. "When we get ready to put a nigger's face in the sand," he shouted, "we put his body there, too." He declared that the people of the South never would submit to negro domination and he hoped Republican senators would turn from their "game of devilry in the Philippines," and assist the South to rid itself of the threat of negro domination.

While Mr. Tillman was speaking many of the Democratic senators left the chamber, his audience on the floor being largely on the Republican side.

Mr. Burton of Kansas vigorously arraigned Mr. Tillman for his utterances. He asserted that the senator who could defend slavery and government by the shotgun could not be expected to think well of senators who were trying to carry good government to the Philippines. He was astonished that a senator in one breath should make an appeal for unsullied government in the Philippines and in the next boast of crimes unparalleled in history. Mr. Burton followed with a warm defense of the government's policy in the Philippines and became involved in a heated colloquy with Mr. Rawlins of Utah because he had denounced some of Mr. Rawlins' statements as false. He paid a brilliant tribute to General Funston as one of the great heroes of the army.

STREET MAIL BOXES ALL UP.

The Time Card on the Boxes Indicates at What Hours the Collections Will be Made.

The job of putting up the mail boxes in various parts of the city was completed today and the same are now ready for the use of the public. Up to the present time the boxes have only been in use in the business portion of the city, the reason being that before the service could be inaugurated after it was established last fall, the ground froze to such an extent that the iron posts could not be set and by the permission of the city council, the mail boxes were placed on the electric light poles in the down town districts. In a very few days time cards will be placed on each of the boxes which will indicate at what hours the mail will be collected, the delay in this being to make a record of the time that the carriers will pass each of the mail receptacles in order to have the time approximately correct in order that the patrons may know to a certainty whether the mail from a certain box has been collected for that trip before the letters are deposited therein. The location of the boxes is as follows:

SECOND WARD.

Arlington hotel, Juniper and Third, Main and Fourth, Grove and Fifth, Kingwood and Seventh, Broadway and Main, Ivy and Ninth, Fir and Ninth, Kingwood and Tenth.

FIRST, FIFTH AND FOURTH WARDS.

THIRD WARD.

In regard to the serious offense connected with any interference with the letter boxes that have just been placed in position, Postmaster Ingersoll desires to call the attention of the public to Section 1603 of the postal laws and regulations which reads as follows:

"Every person who willfully and maliciously injures, tears down, or destroys any letter box, pillar box, or other receptacle established by the postmaster general for the safe deposit of matter for the mail or for delivery, or every person who willfully aids or assists therein, shall for every such offense be punished by a fine of not less than \$100 and not more than \$1000, or by imprisonment for not less than one year and not more than three."

It is not expected that the boxes erected will be disturbed by anyone unless it be by thoughtless boys, and parents will do well to warn their children of the seriousness of any interference of this kind, which will certainly get them into trouble, as the government punishes every offense where the guilty parties can be located.

MUSIC AND DRAMA.

"WAY DOWN EAST" TONIGHT.

Tonight the attraction at the Brainerd Opera House will be William A. Brady's production of "Way Down East." Mrs. Parker's play deals with a subject as old as the hills, but ever new. It's theme is love of the highest, purest type; love that forgives and love that heals. Anna Moore's pathetic story of wrong at the hands of an unprincipled villain; her attempt to live down the shame which he has brought her; her love for David, Squire Bartlett's noble son; the appearance of Sanderson at the Bartlett home where Anna has taken refuge; the discovery of her story and her denunciation of Sanderson bring the play to one of the most thrilling climaxes yet devised for a third act in a rural drama. The subsequent and prospective happiness of Anna and David are the natural sequences of the story. In this "heart story" is wrought a variety of humorous incidents and comic characterization. The country personalities are placed on view in the characters of the Squire, Hi Holler, Martha Perkins, Seth Holcomb, Rube Whipple, the doctor, the choir folk, the berry pickers, and the sturdy, honest farmer lad, David.

HOWARD KYLE IN "NATHAN HALE."

Wherever "Nathan Hale," Clyde Fitch's play, founded upon the romance and patriotism of one of the grandest characters that ever graced American history, has been given there appears to have awakened a new and keener interest in the young and brilliant schoolmaster, whose services in behalf of his country are gratefully remembered by loving patriots who have caused monuments and statues to be erected in his memory. Recently we learn that a noble bronze figure, an ideal embodiment of all that appeals to the spiritual, religious and moral nature of manhood, a work of marvelous beauty and grandeur, conceived and executed by the eminent sculptor, William Ordway Partridge, has been completed and will shortly stand in the College Green at Yale. While such fitting tributes as these are engrossing the attention of Americans, writers are coming forward with great volumes of literature on the subject of "Nathan Hale," whose praises are being printed in praise and verse.

There can be no question concerning the influence Mr. Fitch's great play will have on the rising, as well as future generations who have little time to dig into the dry recesses of history, as from the play can be learned all that concerns that particular period covering some of the most vital issues of the Revolution, and the young and old alike will find in it more than will command attention from a serious point considered for the author has not been at all unmindful of wholesome comedy which serves to lighten and brighten the burdens of everyday cares.

Howard Kyle's portrayal of "Nathan Hale" is said to be the acme of a carefully and conscientiously studied impersonation and to the role he gives an intellectual bearing such as is warranted by a long stage experience in conjunction with artistic genius. At the Brainerd Opera House, Thursday evening May 15.

HOWARD KYLE IN "NATHAN HALE."

Wherever "Nathan Hale," Clyde Fitch's play, founded upon the romance and patriotism of one of the grandest characters that ever graced American history, has been given there appears to have awakened a new and keener interest in the young and brilliant schoolmaster, whose services in behalf of his country are gratefully remembered by loving patriots who have caused monuments and statues to be erected in his memory. Recently we learn that a noble bronze figure, an ideal embodiment of all that appeals to the spiritual, religious and moral nature of manhood, a work of marvelous beauty and grandeur, conceived and executed by the eminent sculptor, William Ordway Partridge, has been completed and will shortly stand in the College Green at Yale. While such fitting tributes as these are engrossing the attention of Americans, writers are coming forward with great volumes of literature on the subject of "Nathan Hale," whose praises are being printed in praise and verse.

There can be no question concerning the influence Mr. Fitch's great play will have on the rising, as well as future generations who have little time to dig into the dry recesses of history, as from the play can be learned all that concerns that particular period covering some of the most vital issues of the Revolution, and the young and old alike will find in it more than will command attention from a serious point considered for the author has not been at all unmindful of wholesome comedy which serves to lighten and brighten the burdens of everyday cares.

Howard Kyle's portrayal of "Nathan Hale" is said to be the acme of a carefully and conscientiously studied impersonation and to the role he gives an intellectual bearing such as is warranted by a long stage experience in conjunction with artistic genius. At the Brainerd Opera House, Thursday evening May 15.

Promised Land Said To be Within
Sight and Parties Are Being
Taken Out.

One or two letters that have reached the city in the past day or two, indicate that the party of fortune seekers that left Brainerd and other points a week or so ago, are a little more sanguine about the prospects than they were at first, and it is thought now, the telegram that was sent home by Mr. Woodin, was more in the nature of a request to those who intended going out not to come too soon.

One letter written home stated that the party is being divided into groups, and one of these will be taken out daily by the promoters and shown the pine. The letters are sent from Susanville, and there is said to be a fine body of pine some 15 or 20 miles from that place.

ED. H. WHITE SELLS OUT.

J. N. Waldrup Succeeds Him in the Business on Front Street and Takes Charge Today.

J. N. Waldrup has closed a deal with Ed. H. White, whereby he succeeds to the business conducted by the latter on Front street, west of the opera house. Mr. White has been in business at that location for a long time, but on account of poor health it would be impossible for him to continue.

Mr. Waldrup, besides conducting a first-class store, keeping all kinds of fishing and hunting goods and other novelties, will continue in his real estate and collection business which he has built up here during the past year. He is a thorough business man and deserves success which he will surely attain.

They had one good trait anyway, as some men would have burned them just for meanness.

I have just secured a very desirable little four-room cottage—east front, with lot 50 x 150, nice trees in front yard, one of the finest wells in the city, place also has city water, and room for a nice garden in rear. Place is located on the north side and also near the shops. I can sell it for \$650 and make easy terms. Places of this kind in Brainerd are now about as scarce as hens teeth and the party that gets this one will be lucky.

BAR THE BEEF TRUST

PACKERS MAY BE FORCED OUT
OF BUSINESS IN THE STATE
OF MISSOURI.

ATTORNEY GENERAL'S VIEW

Considers the Testimony of the St. Joseph Butchers on Rebates and Concessions Conclusive Evidence of the Supremacy of the Combine in the State—Many Butchers Have Quit Business.

Jefferson City, Mo., May 8.—Quo warrant proceedings or an application for a writ of ouster against the meat packing companies will be the next step in the fight of the state of Missouri on the beef trust. The result of the proceedings, if successful, will be to debar the companies from carrying on business in this state. Attorney General Crow considers the testimony of the St. Joseph butchers on rebates and concessions conclusive evidence of the supremacy of the trust in Missouri.

The existence in St. Louis of uniform and fixed meat prices and the secret rebate in addition to the C. O. D. list was shown by testimony taken at the day's session of the beef trust inquiry. Attorney General Crow said that the objection raised by the packers' attorneys at Tuesday's session of the inquiry does not pertain to the validity of the anti-trust law, but only to the law authorizing the inquiry. The two statutes are separate.

"The anti-trust law has been tested twice in the supreme court and is unassailable," said he.

Maurice Prendeville, a St. Louis union market meat dealer, was the first witness examined. In answer to questions by the attorney general Prendeville testified that Armour, Swift, Nelson Morris and Cudahy had a fixed agreement regarding prices. "The packers buy cattle on successive days," said he, "so that each can buy at his own price. There is very little independent buying in the East St. Louis stock yards. The big packers keep others out by telling the cattlemen that if they sell any cattle to the independent buyers they must sell at their terms."

Butchers Forced Out of Business.

"A better grade of cattle is sent east than that sold in St. Louis. The ordinary retail butchers cannot get high class beef. The best beef is sold to butchers at 11 cents on the carcass." William Tamme of St. Louis, formerly city salesman for Swift, testified to a uniform price at which salesmen of all companies were instructed to sell. Attorney Ernest C. Dodge has charge of the C. O. D. list which is made up every week, the witness declared.

Tamme said that the increased price of meat was out of proportion to the increase in the price of cattle. He said 100 butchers in St. Louis had gone out of business, and that the Mount City Packing company and the North St. Louis Packing company had also retired.

At the afternoon session there was additional testimony as to the combination of papers, the giving of rebates and the fixing of uniform prices in St. Louis. Several of the witnesses told of the sale of condemned meats, some of which was made into sausage.

T. Z. Wertz, a Frisco railroad man at Monnet, was the last witness. He grew up in the packing business under his father at Quincy, Ill., and up to a year ago was for several years manager of a branch house of the Swift people at Topeka, Kan. He told of the existence of a combine between the various packing companies to fix the price of meats, and related the incident in which he lost his position for selling lard at half a cent less per pound than the combine price.

WHITE HOUSE CONFERENCE.

Believed the British Camp at Chalmette Was Discussed.

Washington, May 8.—Secretary Hay and Attorney General Knox were in conference with the president for several hours at the White House. When the attorney general arrived he carried with him a large bundle of papers. The subject under discussion was not disclosed, although it is believed to have been the subject of the camp at Port Chalmette, which it is alleged the British have been using as a supply depot for the South African war. The evidence collected by Colonel Crowder regarding that matter was received by the president some time ago and since that time the question has been under consideration by Attorney General Knox. Neither Secretary Hay nor the attorney general would speak about their conference with the president.

AT SCHLEY'S REQUEST:

Presentation of a Silver Service to the Admiral Postponed.

Baltimore, May 8.—Agreeable to the wishes of Rear Admiral W. S. Schley, the presentation of the silver service from the coins taken from the Spanish cruiser Cristobal Colon, has been indefinitely postponed. Owing to the death of Admiral Sampson, Admiral Schley requested the commission having the matter in hand to abandon the social function which had been arranged for at the residence of Theodore Marburg in this city. The service, together with a letter of presentation from the donors of the magnificent gift, will be sent to Washington by express.

HOPE FOR HOLLAND'S QUEEN.

Acute Anxiety Lessened by More Encouraging Bulletins.

The Hague, May 8.—The continued hopeful tenor of the medical bulletins from Castle Loo is dissipating the acute anxiety of the queen's surroundings. The prince consort left the palace during the day for the first time since Sunday.

ATTEMPT A FAILURE.

British House of Commons Refuses to Censure the Speaker.

London, May 8.—The Nationalist members of the house of commons unsuccessfully attempted to force a vote of censure on the speaker of the house, William Court Gully, in connection with the suspension from the house for one week of John Dillon, Nationalist, who March 20 addressed unparliamentary language to Joseph Chamberlain, the colonial secretary. J. J. Mooney, Nationalist, had previously given notice that he would move to censure the speaker, and when Mr. Gully took the chair the Conservative and Liberal members rose and greeted him with cheers. The occupants of the Irish benches remained seated.

Mr. Balfour, the government leader, declared Mr. Mooney's resolution a grave abuse of privilege, intended to bring the authority of the chair into disrepute.

Sir Henry Campbell-Bannerman, the Liberal leader, said he had no doubt the house had perfect confidence in the speaker's ability and impartiality. Mr. Mooney's motion was defeated by a vote of 63 to 289.

NO ACTION TAKEN YET.

United Mine Workers Considering Question of a Strike.

Scranton, Pa., May 8.—The executive boards of the United Mine Workers of America for the three districts comprising the anthracite coal region met here at 10 a. m. to consider the report of the special committee which had been in conference with the presidents of the coal carrying railroads and to decide whether the men are to remain at work or go on strike for increased pay, a shorter day's work and insistence that coal shall be weighed at the mines.

The miners' representatives were in session all day, but nothing was done of which any definite knowledge would be given the public. The meeting, as far as the outside world knows, made absolutely no change in the situation.

KNIGHTS OF LABOR CASE.

Judge Bradley Decides a Long Pending Controversy.

Washington, May 8.—Judge Bradley of the District supreme court, in a decision on the long pending Knights of Labor controversy, upheld the official status of John W. Hays, the general secretary and treasurer of the order of the Knights of Labor, and restrained John N. Parsons, Emory E. Burley, James J. Donnelly, John A. Connor, A. J. O'Keefe and W. E. Carr from interfering with the order. These defendants are restrained from circulating the official journal, using the name or ritual of the order and representing themselves as officers or members of the order.

NOT A DISSENTING VOICE.

Six Thousand Miners Vote to Strike at Johnstown, Pa.

Johnstown, Pa., May 8.—The 6,000 mine workers employed in the 10 mines of the Webster Coal and Coke company in this county decided, without a dissenting voice, at a mass meeting to strike until the company signs the Altoona scale. The men ask that the company sign the mining scale adopted by the joint convention of miners and operators in Altoona in March which all the other operators in this vicinity have signed and observed.

GRAND TRUNK MACHINISTS.

Will Demand an Increase in Wages of Twelve Per Cent.

Chicago, May 8.—Information has been received here that the decision to ask for a 12 per cent increase had been reached in a referendum vote of all the machinists employed on the Grand Trunk road, and a committee of the labor union will present to the managers of the system for acceptance the wage scale as amended by vote of the working men.

Tugmen's Strike Spreading.

Cleveland, May 8.—A conference to settle the tugmen's strike was held here, and instead of a settlement a wider breach than ever now exists and all union labor employed by the Great Lakes Towing company from Duluth to Buffalo will be called out because of the refusal of the towing company to grant the demands of the tugmen at Cleveland, which were that they be given every second night and every second Sunday off at full pay. This privilege was to obtain in Cleveland only.

Hoisting Engineers' Strike Ends.

Butte, Mo., May 8.—The hoisting engineers of the American Copper company's mines have declared their strike off. The men failed to obtain the support of the Silver Bow trades and labor assembly and this is supposed to have influenced their action. The strikers, 28 in number, demanded an increase in wages, and being refused, walked out, tying up nine of the biggest copper mines in Butte and throwing several thousand men out of work.

No New Developments.

New York, May 8.—There were no new developments regarding the three Stock Exchange firms which suspended Monday after the severe break in the so-called Webb-Meyer syndicate. Assignees continued their examination of the books of Lockwood, Hurd & Co. and Henry Bros. & Co. Schedules of liabilities and assets may be filed before the end of the week, but probably not before next week.

Postmaster General Will Appeal.

Washington, May 8.—Postmaster General Payne will appeal from the decision of the District supreme court admitting certain publications to the second class mail rate. While no steps have yet been taken, it is stated without doubt the case will be taken to the supreme court of appeals and from there, if necessary, to the United States supreme court.

Snow in Southern Germany.

Berlin, May 8.—A snow storm occurred in Southern Germany and the orchards which were in bloom were severely damaged. Snow fell to the depth of one foot. The weather here is unusually cold.

REVOLUTIONIZES WARFARE.

New Gun to Throw a Two-Ton Projectile Ninety Miles.

Berlin, May 8.—Professor Birkland, the Norwegian physicist, has been in Berlin recently for the purpose of demonstrating the powers of his electromagnetic cannon before a number of experts in electrical artillery. The results of the demonstration have been so convincing that a firm of artillery manufacturers has offered to buy the invention for immediate exploitation, provided Professor Birkland will increase the length of the piece used in the trials so that it will throw a projectile weighing two tons a distance of 12 miles.

Theoretically, the device can throw a projectile weighing two tons a distance of 90 miles, or even further, by sufficiently prolonging the tube. The principle upon which the new gun acts has not been made public, but it is known that the projectile is expelled from an ordinary cast iron tube thickly wrapped with copper wire. This tube can, of course, be more cheaply made than the cannon now in use. No explosive gases result from the discharge of the new gun.

Professor Birkland's invention has stirred up great interest among technical observers, some of whom are of the opinion that it signifies a greater revolution in fighting material than that brought about by the discovery of gunpowder.

WAS ABOVE REPROACH.

Facts About Conduct of American Sailors at Trieste.

Vienna, May 8.—It has been learned that the facts of the arrest of the four sailors of the United States cruiser Chicago for alleged disorderly conduct in a cafe are as follows:

Last Sunday evening four sailors from the Chicago were bailed by a crowd of civilians while ashore at Trieste. The police interfered and arrested one of the civilians. The chief of police at Trieste says that the conduct of the American sailors ashore was above reproach.

Herr Most Discharged.

New York, May 8.—John Most, who was arrested last Sunday night, with William Macqueen and Solomon Hiller, after Macqueen had made an incendiary speech at an anarchist meeting, has been discharged from custody. Macqueen and Hiller were held for trial. Most has a sentence of one year in prison to serve, having been convicted of a misdemeanor for matter he printed after President McKinley's death.

Denied by Mrs. Davis.

New York, May 8.—Mrs. Cushman K. Davis, widow of United States Senator Davis of Minnesota, emphatically denied at the Waldorf-Astoria that she was en route to Europe to wed Don Abazua, formerly Spanish secretary for the colonies.

TELEGRAPHIC BREVITIES.

A fire at Loblinsk, government of Minsk, Russia, has destroyed 972 houses and 650 small shops.

An order calling for new proposals on the \$28,000,000 Havana municipal loan has been published. Bids will be opened May 17.

BAR THE BEEF TRUST

PACKERS MAY BE FORCED OUT
OF BUSINESS IN THE STATE
OF MISSOURI.

ATTORNEY GENERAL'S VIEW

Considers the Testimony of the St. Joseph Butchers on Rebates and Concessions Conclusive Evidence of the Supremacy of the Combine in the State—Many Butchers Have Quit Business.

Jefferson City, Mo., May 8.—Quo warrant proceedings on an application for a writ of ouster against the meat packing companies will be the next step in the fight of the state of Missouri on the beef trust. The result of the proceedings, if successful, will be to debar the companies from carrying on business in this state. Attorney General Crow considers the testimony of the St. Joseph butchers on rebates and concessions conclusive evidence of the supremacy of the trust in Missouri.

The existence in St. Louis of uniform and fixed meat prices and the secret rebate in addition to the C. O. D. list was shown by testimony taken at the day's session of the beef trust inquiry. Attorney General Crow said that the objection raised by the packers' attorneys at Tuesday's session of the inquiry does not pertain to the validity of the anti-trust law, but only to the law authorizing the inquiry. The two statutes are separate.

"The anti-trust law has been tested twice in the supreme court and is unassailable," said he.

Maurice Prendeville, a St. Louis union market meat dealer, was the first witness examined. In answer to questions by the attorney general Prendeville testified that Armour, Swift, Nelson Morris and Cudahy had a fixed agreement regarding prices.

"The packers buy cattle on successive days," said he, "so that each can buy at his own price. There is very little independent buying in the East St. Louis stock yards. The big packers keep others out by telling the cattlemen that if they sell any cattle to the independent buyers they must sell all to them."

Butchers Forced Out of Business.

"A better grade of cattle is sent east than that sold in St. Louis. The ordinary retail butchers cannot get high class beef. The best beef is sold to butchers at 11 cents on the carcass."

William Tammie of St. Louis, formerly city salesman for Swift, testified to a uniform price at which salesmen of all companies were instructed to sell. Attorney Ernest C. Dodge has charge of the C. O. D. list which is made up every week, the witness declared.

Tammie said that the increased price of meat was out of proportion to the increase in the price of cattle. He said 100 butchers in St. Louis had gone out of business, and that the Mound City Packing company and the North St. Louis Packing company had also retired.

At the afternoon session there was additional testimony as to the combination of papers, the giving of rebates and the fixing of uniform prices in St. Louis. Several of the witnesses told of the sale of condemned meats, some of which was made into sausage.

T. Z. Wertz, a Frisco railroad man at Monnet, was the last witness. He grew up in the packing business under his father at Quincy, Ill., and up to a year ago was for several years manager of a branch house of the Swift people at Topeka, Kan. He told of the existence of a combine between the various packing companies to fix the price of meats, and related the incident in which he lost his position for selling lard at half a cent less per pound than the combine price.

WHITE HOUSE CONFERENCE.

Believed the British Camp at Chalmette Was Discussed.

Washington, May 8.—Secretary Hay and Attorney General Knox were in conference with the president for several hours at the White House. When the attorney general arrived he carried with him a large bundle of papers. The subject under discussion was not disclosed, although it is believed to have been the subject of the camp at Port Chalmette, which it is alleged the British have been using as a supply depot for the South African war. The evidence collected by Colonel Crowder regarding that matter was received by the president some time ago and since that time the question has been under consideration by Attorney General Knox. Neither Secretary Hay nor the attorney general would speak about their conference with the president.

AT SCHLEY'S REQUEST:

Presentation of a Silver Service to the Admiral Postponed.

Baltimore, May 8.—Agreeable to the wishes of Rear Admiral W. S. Schley, the presentation of the silver service from the coins taken from the Spanish cruiser Cristobal Colon, has been indefinitely postponed. Owing to the death of Admiral Sampson, Admiral Schley requested the commission having the matter in hand to abandon the social function which had been arranged for at the residence of Theodore Marburg in this city. The service, together with a letter of presentation from the donors of the magnificent gift, will be sent to Washington by express.

HOPE FOR HOLLAND'S QUEEN.

Acute Anxiety Lessened by More Encouraging Bulletins.

The Hague, May 8.—The continued hopeful tenor of the medical bulletins from Castle Loo is dissipating the acute anxiety of the queen's surroundings. The prince consort left the palace during the day for the first time since Sunday.

ATTEMPT A FAILURE.

British House of Commons Refuses to Censure the Speaker.

London, May 8.—The Nationalist members of the house of commons unsuccessfully attempted to force a vote of censure on the speaker of the house, William Court Gully, in connection with the suspension from the house for one week of John Dillon, Nationalist, who March 20 addressed unparliamentary language to Joseph Chamberlain, the colonial secretary.

J. J. Mooney, Nationalist, had previously given notice that he would move to censure the speaker, and when Mr. Gully took the chair the Conservative and Liberal members rose and greeted him with cheers. The occupants of the Irish benches remained seated.

Mr. Balfour, the government leader, declared Mr. Mooney's resolution a grave abuse of privilege, intended to bring the authority of the chair into disrepute.

Sir Henry Campbell-Bannerman, the Liberal leader, said he had no doubt the house had perfect confidence in the speaker's ability and impartiality. Mr. Mooney's motion was defeated by a vote of 63 to 339.

NO ACTION TAKEN YET.

United Mine Workers Considering Question of a Strike.

Scranton, Pa., May 8.—The executive boards of the United Mine Workers of America for the three districts comprising the anthracite coal region met here at 10 a. m. to consider the report of the special committee which had been in conference with the presidents of the coal carrying railroads and to decide whether the men are to remain at work or go on strike for increased pay, a shorter day's work and insistence that coal shall be weighed at the mines.

The miners' representatives were in session all day, but nothing was done of which any definite knowledge would be given the public. The meeting, as far as the outside world knows, made absolutely no change in the situation.

KNIGHTS OF LABOR CASE.

Judge Bradley Decides a Long Pending Controversy.

Washington, May 8.—Judge Bradley of the District supreme court, in a decision on the long pending Knights of Labor controversy, upheld the official status of John W. Hays, the general secretary and treasurer of the order of the Knights of Labor, and reinstated John N. Parsons, Emory E. Burley, James J. Donnelly, John A. Connor, A. J. O'Keefe and W. E. Carr from interfering with the order. These defendants are restrained from circulating the official journal, using the name or ritual of the order and representing themselves as officers or members of the order.

NOT A DISSENTING VOICE.

Six Thousand Miners Vote to Strike at Johnstown, Pa.

Johnstown, Pa., May 8.—The 6,000 mine workers employed in the 10 mines of the Webster Coal and Coke company in this county decided, without a dissenting voice, at a mass meeting to strike until the company signs the Altona scale. The men ask that the company sign the mining scale adopted by the joint convention of miners and operators in Altona in March which all the other operators in this vicinity have signed and observed.

GRAND TRUNK MACHINISTS.

Will Demand an Increase in Wages of Twelve Per Cent.

Chicago, May 8.—Information has been received here that the decision to ask for a 12 per cent increase had been reached in a referendum vote of all the machinists employed on the Grand Trunk road, and a committee of the labor union will present to the managers of the system for acceptance the wage scale as amended by vote of the working men.

Tugmen's Strike Spreading.

Cleveland, May 8.—A conference to settle the tugmen's strike was held here, and instead of a settlement a wider breach than ever now exists and all union labor employed by the Great Lakes Towing company from Duluth to Buffalo will be called out because of the refusal of the towing company to grant the demands of the tugmen at Cleveland, which were that they be given every second night and every second Sunday off at full pay. This privilege was to obtain in Cleveland only.

Hoisting Engineers' Strike Ends.

Butte, Mont., May 8.—The hoisting engineers of the American Copper company's mines have declared their strike off. The men failed to obtain the support of the Silver Bow trades and labor assembly and this is supposed to have influenced their action. The strikers, 28 in number, demanded an increase in wages, and, being refused, walked out, tying up nine of the biggest copper mines in Butte and throwing several thousand men out of work.

No New Developments.

New York, May 8.—There were no new developments regarding the three Stock Exchange firms which suspended Monday after the severe break in the so-called Webb-Meyer syndicate. Assignees continued their examination of the books of Lockwood, Hard & Co. and Henry Bros. & Co. Schedules of liabilities and assets may be filed before the end of the week, but probably not before next week.

Postmaster General Will Appeal.

Washington, May 8.—Postmaster General Payne will appeal from the decision of the District supreme court admitting certain publications to the second class mail rate. While no steps have yet been taken, it is stated without doubt the case will be taken to the supreme court of appeals and from there, if necessary, to the United States supreme court.

Snow in Southern Germany.

Berlin, May 8.—A snow storm occurred in Southern Germany and the orchards which were in bloom were severely damaged. Snow fell to the depth of one foot. The weather here is unusually cold.

REVOLUTIONIZES WARFARE.

New Gun to Throw a Two-Ton Projectile Ninety Miles.

Berlin, May 8.—Professor Birkland, the Norwegian physicist, has been in Berlin recently for the purpose of demonstrating the powers of his electromagnetic cannon before a number of experts in electrical artillery. The results of the demonstration have been so convincing that a firm of artillery manufacturers has offered to buy the invention for immediate exploitation, provided Professor Birkland will increase the length of the piece used in the trials so that it will throw a projectile weighing two tons a distance of 12 miles.

Theoretically, the device can throw a projectile weighing two tons a distance of 90 miles, or even further, by sufficiently prolonging the tube. The principle upon which the new gun acts has not been made public, but it is known that the projectile is expelled from an ordinary cast iron tube thickly wrapped with copper wire. This tube can, of course, be more cheaply made than the cannon now in use. No explosive gases result from the discharge of the new gun.

Professor Birkland's invention has stirred up great interest among technical observers, some of whom are of the opinion that it signifies a greater revolution in fighting material than that brought about by the discovery of gunpowder.

WAS ABOVE REPROACH.

Facts About Conduct of American Sailors at Trieste.

Vienna, May 8.—It has been learned that the facts of the arrest of the four sailors of the United States cruiser Chicago for alleged disorderly conduct in a cafe are as follows:

Last Sunday evening four sailors from the Chicago were baited by a crowd of civilians while ashore at Trieste. The police interfered and arrested one of the civilians. The chief of police at Trieste says that the conduct of the American sailors ashore was above reproach.

Herr Most Discharged.

New York, May 8.—John Most, who was arrested last Sunday night, with William MacQueen and Solomon Hiller, after MacQueen had made an incendiary speech at an anarchist meeting, has been discharged from custody. MacQueen and Hiller were held for trial. Most has a sentence of one year in prison to serve, having been convicted of a misdemeanor for matter he printed after President McKinley's death.

Denied by Mrs. Davis.

New York, May 8.—Mrs. Cushman K. Davis, widow of United States Senator Davis of Minnesota, emphatically denied at the Waldorf-Astoria that she was en route to Europe to wed Don Abazusa, formerly Spanish secretary for the colonies.

A fire at Lohrinsk, government of Minsk, Russia, has destroyed 972 houses and 650 small shops.

An order calling for new proposals on the \$28,000,000 Havana municipal loan has been published. Bids will be opened May 17.
